Family Description Text

In Japanese, Sunao means honesty. It is a word that holds more than truthfulness; it carries the spirit of living with clarity, humility, and respect for the natural world. The Sunao Collection is born from this philosophy, an exploration of how simple forms and honest materials can create vessels that feel both timeless and alive.

The inspiration lies in the dialogue between nature and craft. Each vase and plant pot is shaped to frame what it holds, yet never overshadows it. The smooth surface speaks of calm refinement, like the stillness of a quiet morning, while the Beehive texture, cast from shoreline shellfish, celebrates imperfection, rhythm, and the raw poetry of nature.

Every piece is hand painted, carrying subtle variations that make it one of a kind, echoing the Japanese belief that beauty is found in uniqueness and quiet detail. Just as no leaf, branch, or wave is ever identical, no Sunao vessel is the same.

Whether standing with flowers, branches, or greenery, or existing in sculptural silence, Sunao becomes more than an object. It is a companion to daily life, a reminder of honesty in design and in living, where simplicity allows nature to take centre stage.

Color Description

A living dialogue with nature. Cast from shellfish found along the shoreline, its organic surface carries the soft warmth colour of birch a gentle, creamy beige with natural brightness. Hand-painted with visible brush strokes, this finish may vary in tone and pattern, making every piece truly unique.

Maintenance Guide Description

Our hand-painted fiber concrete vases combine strength with artistry, designed for indoor use and crafted to be fully waterproof inside.

To care for the finish, dust the exterior gently with a soft, dry cloth. If deeper cleaning is needed, wipe carefully with a damp cloth and mild, pH-neutral soap, then dry immediately. Avoid abrasive pads, harsh chemicals, acidic or alkaline cleaners, and sharp objects, as these may damage the hand-painted surface.

The vases are waterproof within and can safely hold water for fresh flowers. After rinsing, dry gently and take care not to let excess water sit on the painted exterior, helping to preserve its finish over time.

With mindful care, each vase will retain its depth, warmth, and unique hand-painted character, becoming a lasting presence in your home.
