Wing Bowl, Big - Sand

Product Description

The Wing Bowl is all about gravity and a sense of floating through the air. A sculptural bowls that makes one want to be lifted into thin air, even though its presence is very much grounding as well. The silhouette is made up of two wings and a single cylinder-shaped leg as a steady contrast.

The Big Wing Bowl makes a sculptural statement as a centerpiece on a dining table, coffee table, or console. While not food approved, its generous size and striking silhouette allow it to stand beautifully on its own, or styled with decorative objects, branches, or seasonal ornaments. With its airy yet grounding form, it transforms any surface into an artistic focal point.

Style together with the mini, side by side for a dynamic, sculptural composition that elevates any space. Each bowl is hand painted to create a textured and unique surface.

Designer Description

Tommy Hyldahl and Kristian Sofus Hansen intertwine their distinct sensibilities to create designs where storytelling, materiality, and timeless form meet in quiet harmony.

With a background in fashion, Tommy brings an intuitive eye for trends, colors, and textures. His process is one of layering histories, blending details and references from past design periods and reimagining them into something fresh and contemporary. Each collection unfolds as a narrative, evolving from concept to creation, with every element contributing to a greater story.

Kristian, who has lived and studied in Japan, seeks to unite Japanese aesthetics with Danish design, creating a characteristic twist on simplicity itself. His work is defined by the search for subtle, original details that elevate each piece with a unique signature. Drawing inspiration from art and sculpture, his creative process unfolds in new and exciting ways, always striving to craft designs that are both functional and timeless.

Together, they craft design that transcends time, poetic yet practical, expressive yet enduring.

Wing Bowl, Big - Sand

Family Description Text

Guided by the quiet balance of Japanese design philosophy, the Wing collection explores the dialogue between gravity and lightness, between what is grounded and what aspires to rise. Each bowl rests in a state of poised suspension, as if caught in the instant before flight.

The silhouette opens into two sweeping wings that hold the surrounding air, while a single cylindrical leg anchors the form in steady balance. This meeting of lift and grounding evokes a subtle grace that reveals the unseen forces within stillness.

Defined by restraint and clarity, the Wing collection embodies simplicity and tranquillity. The space between form and air creates a sense of calm harmony. Each bowl is both vessel and sculpture, a study in presence, balance, and quiet strength.

Color Description

Hand-painted in a soft, golden-beige, this light natural tone carries a sunlit warmth. Reminiscent of coastal dunes and bright shores, it adds an airy calm and effortless neutrality. Brush stroke variations enhance the play of light and shade, giving each piece a one-of-a-kind character.

Maintenance Guide Description

Our hand-painted ceramic pieces are crafted as decorative objects, designed to age gracefully when cared for with gentleness.

The outer surface of our pieces is hand-painted and should be treated with the same reverence dust lightly with a soft, dry cloth, allowing the painted character to remain untouched. Water, harsh cleaners, or abrasives should never meet this surface, as they can disturb its delicate finish.

Vases are sealed within and may hold water for fresh flowers. Clean their interiors gently with lukewarm water, then dry carefully, taking care that no moisture touches the painted exterior.

To preserve their vibrancy, keep each piece away from prolonged sunlight and sudden shifts in temperature. With such mindful care, every ceramic piece will hold its artistry, warmth, and timeless presence for years to come.

Materials Description

Ceramic is one of the oldest and most enduring materials, celebrated for its strength, versatility, and timeless beauty. Shaped from natural clay and fired at high temperatures, it achieves a density and durability that make it ideal for both functional and decorative use. Its smooth surface provides the perfect canvas for craftsmanship.

Our ceramic is elevated through hand painting, where layers of pigment are carefully applied by skilled artisans. This process creates subtle variations in tone, texture, and detail, ensuring that no two pieces are ever alike. The result is a material that combines resilience with individuality practical enough for everyday use, yet refined enough to stand as an object of art.

Hand-painted ceramic embodies the harmony of nature, craft, and time: a surface that carries both the permanence of fired clay and the soulful presence of the human hand.
